The following data is provided as the basis for preparing an offer for VENTZKI lifting table(s):

**Delivery quantity:** number of pieces: \_\_\_\_\_

**Use / installation:**

- Loading work                       on the operation<sup>ooo ooooooo</sup>                       mechanical maintenance work  
 stationary                               in the building <sup>oooooooooooo</sup>                       outdoors  
 \_\_\_\_\_                               above ground                               installation pit

**Load:**

required load capacity: \_\_\_\_\_ kg

Load type:

- evenly                                       concentric  
 rolling last                                       shelve one-sided

**Dimensions:**

Platform width BP: \_\_\_\_\_ mm                              Platform length LP: \_\_\_\_\_ mm

Construction Height HB: \_\_\_\_\_ mm                              Useful stroke HN: \_\_\_\_\_ mm

**Lifting and lowering device:**

Desired lifting time: \_\_\_\_\_ seconds

Electric. connection:                       400 V - 50 Hz                               230 V - 50 Hz

Special voltage:

Control / valve voltage:                       24 V                                       special voltage

Drive unit:                                       installed in the lifting table                       arranged separately

Control:                                       Foot switch firmly attached                       Foot switch loose on the cable (l = 3m)  
 without control

**Version:**

- Surface protection through primer and top coat RAL 7035/7016 (light gray / anthracite gray)  
 Special request

**Special equipment:**

- Switch-off strips (standard)                       Sheet metal protective cover                       Cover/panel  
 Tear plate                                       transfer wedge                                       Guard rail  
 Built-on turntable                               movable on rollers                               Container stops on platform  
 100 mm Underclearance                       bellows                                       \_\_\_\_\_
