

NE 330

Stationary tipping equipment with electrohydraulic drive for large load carriers with space-saving design and a load capacity of up to 1,200 kg

- ▶ Low space needs due to two-dimensional tipping movements; thus, no container overhang into the working area.
- ▶ Can lift large load carriers such as cage boxes.
- ▶ Can position containers using a route pulling system.
- ▶ Low-maintenance electrohydraulic drive.
- ▶ Tipping angle to 80°.
- ▶ Low-maintenance and trouble-free operation thanks to high quality, robust components.
- ▶ With side protective grid.

 **AREAS OF APPLICATION**

- Positioning on automobile production line conveyors
